

# Primary Project at Woodland Elementary

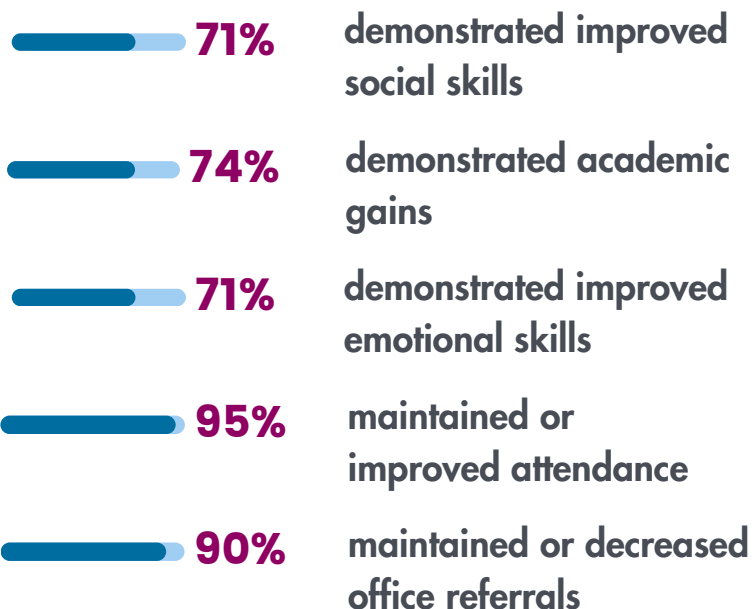

Woodland Elementary School in the East Syracuse Minoa Central School District, has proudly implemented Primary Project in grades K–3 for over 13 years. This success is made possible through a strong partnership with Contact Community Services (CCS), along with the dedication of a mental health supervisor and a skilled child associate.

## Student Snapshot

**214** students were screened in the 2024-2025 school year using the Teacher Child-Rating Scale (T-CRS), an assessment tool designed to support student social-emotional and behavioral growth.

**41** students were selected to participate in Primary Project based on T-CRS data.

## Outcomes

## Impact

*"My daughter used to cry every morning before going to school and on the bus. I am so proud of her on how far she has come. She hasn't cried in weeks! What a wonderful relief to see how far she has come!"*

*"I really like it when my son comes home every time he goes and always tells us what he did and can't wait to go again."*

*"My students always come back to class smiling and happy. They get so excited when it is their turn to go."*
